

GETTING STARTED WITH ASP MEMBERS' GROUP EMAIL (GAGGLE MAIL)

ASP uses "Gaggle Mail" as a closed email group so you can connect directly to each and all ASP Members. You can choose to do this from the Gaggle Mail email client or from your own normal email system.

This brief overview will allow you to get started and send and receive emails to either individual ASP members or to the whole ASP Membership Group. It covers how to:

1. Set up your account
2. Make changes to your email settings
3. See the list of all messages sent
4. See all members email addresses
5. Send group emails from the Gaggle Mail system
6. Send group emails from your own email
7. Send emails to individual members from your normal email account

CONNECTING WITH ALL THE OTHER MEMBERS

ASP is a community of people striving to create a better future for future generations.

We are diverse, global and multi-generational and cover a wide spectrum of cultures, practices, experiences, passions and professions.

One big benefit of membership is the ability to call on any or all of the members when you need.

To facilitate that ASP uses a closed email group “Gaggle Mail”. Here’s how to get the most from it...

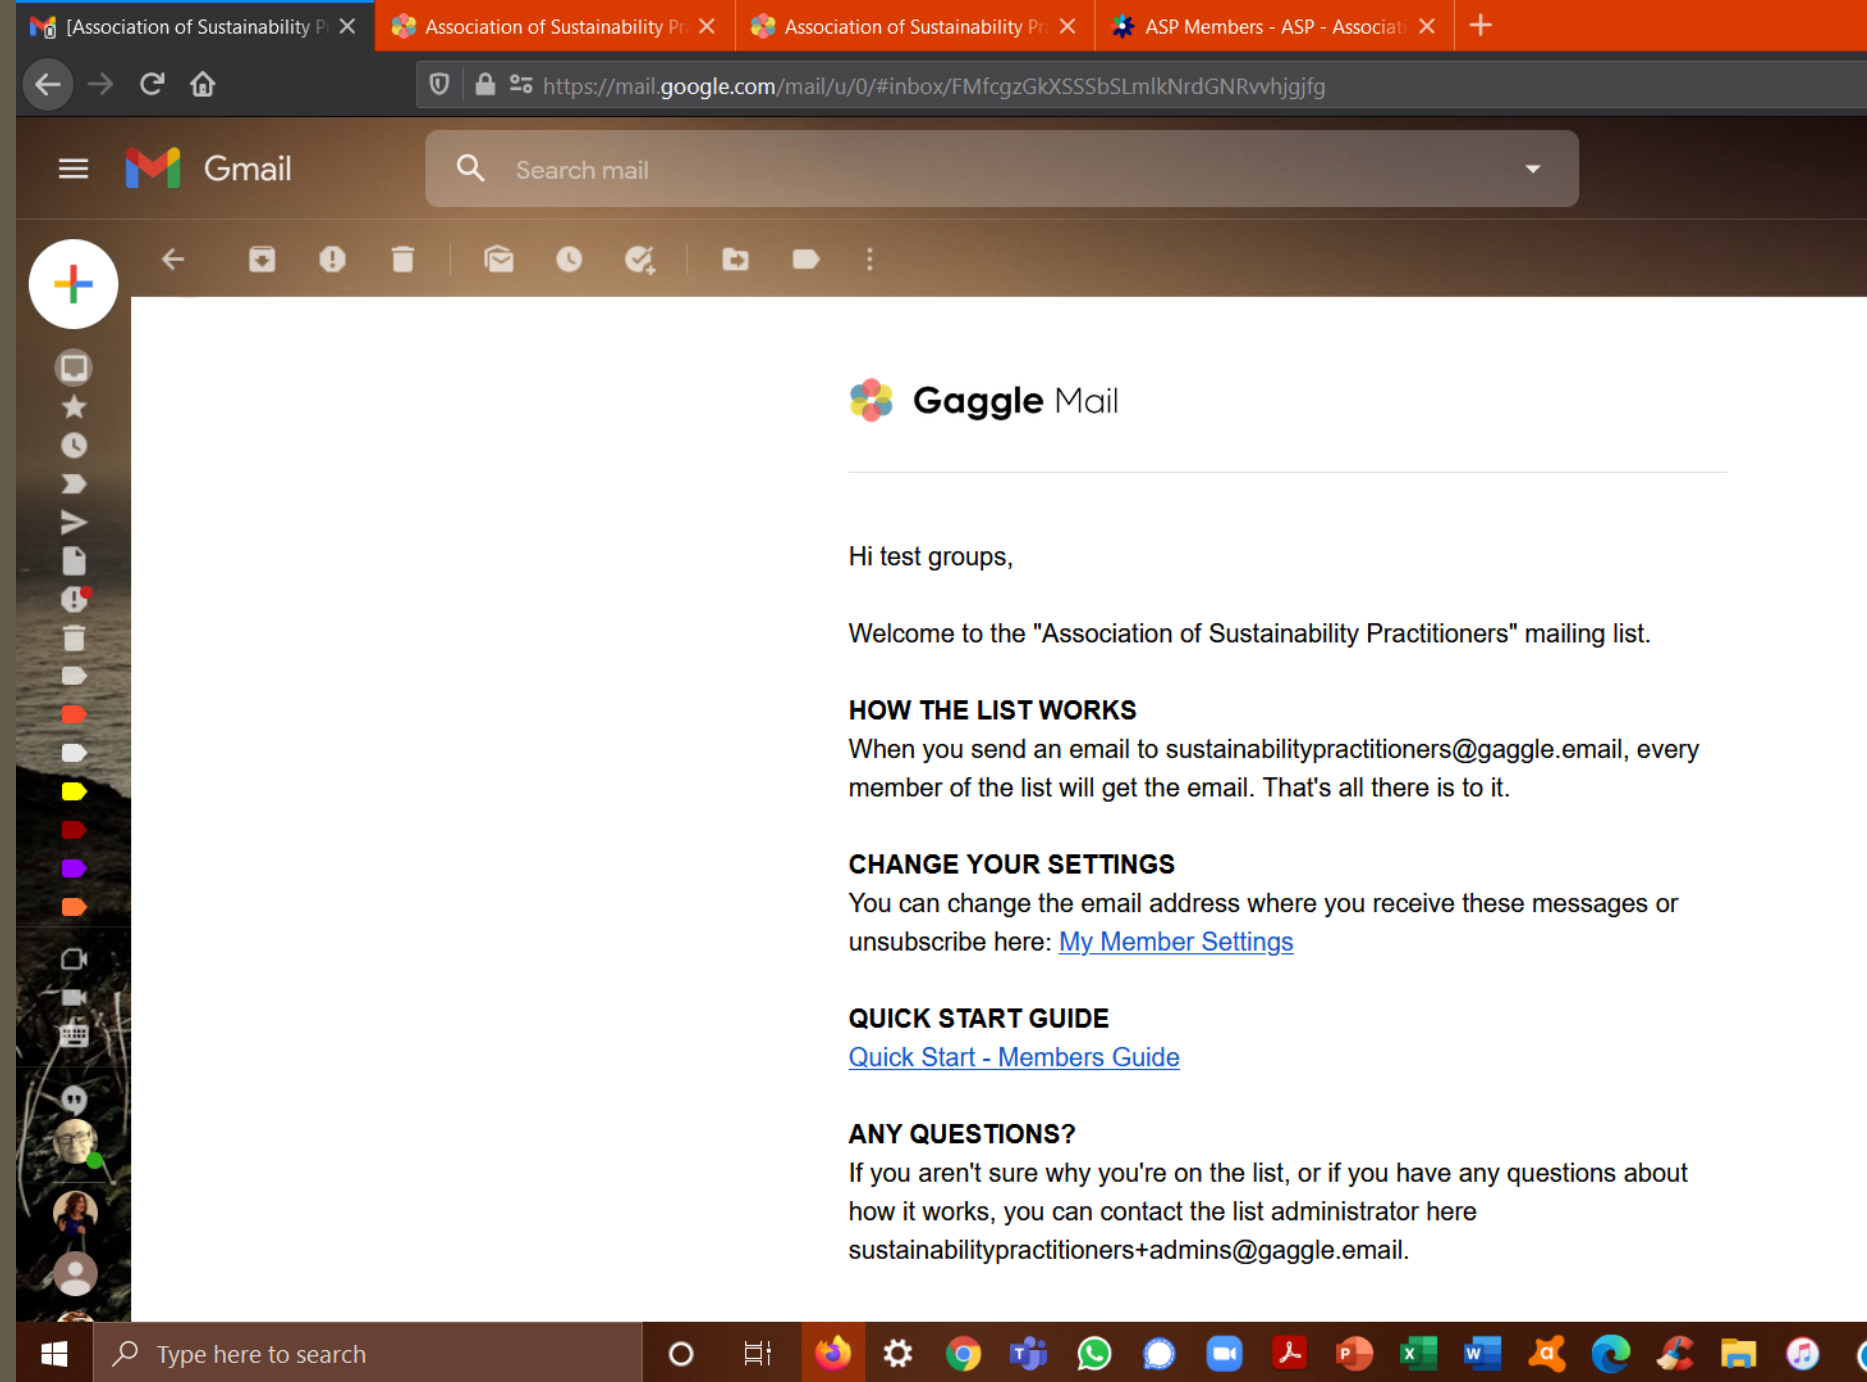

Set up your account

You have been invited to join the group and receive the standard Gaggle mail welcome email

Set up your account by clicking "my member settings" and then "create an account" and log in to your account using the email address you joined ASP with.

If you don't know which one you used, or can't find your welcome email, please email:
asp.coordination@gmail.com

Change your email settings

You can change your email settings e.g. name, email, and daily digest.

Click on your name.

Then, in the form on the right, adjust your settings.

Hello fellow ASP members

Good Will Studios is one of the most recent members of the Organisation for Responsible Businesses and, as you will see from his email below, the founder Will Saunders is also very involved in other environmental organisations and campaigns.

If you could check out and support the [Scientists Warning crowdfunder](#) by making a small donation and/or sharing, it would be much appreciated.

Thanking you in anticipation of your support.

Warm regards

Jill

Send emails from the Gaggle Mail system

You can send emails from here to the entire group using COMPOSE

You *CAN'T* send emails to individual members from here.

Exception: "To"

Default: "BCC"

Send emails from your own email system

You can send a group email to all members from your own email (the one registered in gagglemail) by using the email address:

sustainabilitypractitioners@gaggle.email

NOTE: Please default to putting this in the BCC field to avoid reply cascades! If you do want to include all members in the resulting conversation then you could add it to the "To" field. Use this sparingly.

Send emails to individual members from your normal email account

You can send emails to individual members from your normal email account by copying their email address from the Gaggle mail list.

STILL STUCK?

- Send an email to asp.coordination@gmail.com
- Or call: +44 779 563 2607
