

You're invited

to the first gathering of what we hope will become the

Sustainability Professionals ASEAN Network (SPAN)

Portman's Bar
5.30pm to 7.30pm
Tuesday 9 May 2023

PARKROYAL
COLLECTION
MARINA BAY, SINGAPORE

I've been encouraged by a few friends in "the sustainability movement" - as more of us, young and old, are willingly taking on sustainability titles - that now is the time to bring us all together. Initially in Singapore, but ideally in the ASEAN region.

Recently, I met with Kevin Phun, who runs the **Centre for Responsible Tourism**, as well as the LinkedIn group **Sustainability Professionals Singapore** and he's agreed to help get this Sustainability Network started. There are many others I know who are ready to get involved in this network as well.

I'm so pleased that Elaine Chan - who has the grand title of Director of Marketing Communications and Sustainability - has offered to host the first gathering at the **PARKROYAL COLLECTION** Marina Bay, Singapore, as this hotel has done far more than most in the hospitality sector to showcase its sustainability credentials, winning awards and recognition in the process.

So please come along on the Tuesday 9 May 2023, as Elaine has arranged for the hotel to provide complimentary snacks and offered a 20% discount on drinks for all of us from 5.30 to 7.30pm.

So we can cater for all, please **RSVP** your attendance to one of us and feel free to bring a guest or two:

kenhickson@abccarbon.com or **kevin@crt.singapore**

Spread the word and let's make this the start of something special.

Sustainably Yours

Ken Hickson

Chairman, Sustain Ability Showcase Asia (SASA)
